26	York	12
27	Heriot-Watt	38
28	Edinburgh Napier	84
29	Northumbria	60
30	Strathclyde	40

* Graduate Prospects

What is it?

A measure of the employability of a university's graduates calculated by The Complete University Guide 2012.

Where does it come from?

Higher Education Statistics Agency (HESA) data for 2008–09 (# Graduate Prospects data provided by the University)

How does it work?

The number of graduates who take up employment or further study divided by the total number of graduates with a known destination expressed as a percentage. Only employment in an area that normally recruits graduates was included. The results were then adjusted to take account of the subject mix at the university.
